

NANDAN PRUTHVI RAJ R

SOFTWARE ENGINEER | FULL-STACK & AI INTEGRATION

Bengaluru, Karnataka, India | +91 63621 91396 | nandanpruthvi1@gmail.com
LinkedIn: linkedin.com/in/nandan01 | GitHub: github.com/nandan-npr | Immediate Joiner

PROFESSIONAL SUMMARY

Computer Science Engineering graduate (Cambridge Institute of Technology, CGPA 8.0/10) with hands-on expertise building scalable full-stack web applications, AI-integrated microservices, and high-performance REST APIs. Proven internship experience at 1Stop.ai (Backend Systems) and MindMatrix (Mobile Gen-AI Workflows). Skilled across JavaScript/TypeScript, React, Node.js, Express, Python, MongoDB, and SQL with 90+ LeetCode/GFG algorithmic problems solved.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript (ES6+), TypeScript, Python, C++, HTML5, CSS3, React.js, Node.js, Express.js, Tailwind CSS

Databases & Storage: MongoDB, PostgreSQL, MySQL, Relational Database Modeling, Schema Indexing

AI Integration & Tools: Google Gemini API, RESTful APIs, Git, GitHub, Postman, Vite, Vercel, Render, Cloudflare

Core Engineering: Data Structures & Algorithms (90+ LeetCode/GFG), Object-Oriented Programming, System Architecture

WORK & INTERNSHIP EXPERIENCE

Backend Engineering Intern | 1Stop.ai

Bengaluru, India

May 2024 – Jul 2024 (Full-Time Internship)

- Designed and maintained scalable server-side REST API endpoints utilizing Node.js and Express.js for platform user operations.
- Integrated database CRUD operations with structured query optimization, reducing query response times across high-traffic tables.
- Collaborated in cross-functional standups to resolve backend authentication, request validation, and production error debugging.

Mobile Application & AI Intern | MindMatrix

Bengaluru, India

Dec 2023 – Jan 2024 (Winter Internship)

- Developed responsive user interface screens and tested interactive state handlers within production mobile application workflows.
- Evaluated generative AI workflow prompts and assisted in integrating client-side request pipelines with backend services.
- Authored technical documentation and test cases verifying user validation rules and cross-platform consistency.

FEATURED TECHNICAL PROJECTS

Skinmatics — Skincare Clinic Appointment Management System

React, Node.js, Express, MongoDB, REST APIs, Render

- Built complete end-to-end medical clinic booking web platform with responsive user appointment scheduling and inquiries.
- Engineered protected administrative dashboard allowing clinic staff to review, update status, and manage incoming patient queues.
- Designed indexed MongoDB collections for consultation slots and implemented input validation preventing double-booking.

Aura Shop — AI-Integrated Full-Stack E-Commerce Platform

React, Express, Node.js, MongoDB, Google Gemini API, Tailwind CSS

- Developed an interactive online store featuring real-time catalog filtering, responsive cart state, and order workflows.
- Integrated Google Gemini API on the backend to deliver a contextual shopping assistant answering customer product queries.
- Secured API keys via backend proxy architecture and handled concurrent client requests with stateless session tokens.

Verified Careers — Recruitment Opportunity & Verification System

React.js, Node.js, Express, MongoDB, OTP Auth, Data Validation

- Designed verification-first job board combating fraudulent postings with dedicated admin approval queues and candidate feeds.
- Implemented OTP-based authentication and role-based permissions separating candidate applications from admin review controls.

EDUCATION

Bachelor of Engineering (B.E.) in Computer Science & Engineering

CGPA: 8.0 / 10.0

Cambridge Institute of Technology, Bengaluru, Karnataka (VTU) | Graduation: 2026

Key Coursework: Data Structures & Algorithms, Database Management Systems (DBMS), Operating Systems, Computer Networks, Software Engineering

CERTIFICATIONS & ACHIEVEMENTS

- Full Stack Web Development (MERN Stack) — Cambridge Institute of Technology & Industry Partners
- Data Analytics & Visualization Job Simulation — Forage (Accenture North America & Boston Consulting Group)
- Problem Solving & Algorithmic Practice — 90+ LeetCode and GeeksforGeeks problems solved (Arrays, Strings, Linked Lists, Trees)
