

NANDAN PRUTHVI RAJ R

DATA ANALYST | BUSINESS INTELLIGENCE & DATA SYSTEMS

Bengaluru, Karnataka, India | +91 63621 91396 | nandanpruthvi1@gmail.com
LinkedIn: linkedin.com/in/nandan01 | GitHub: github.com/nandan-npr | Immediate Joiner

PROFESSIONAL SUMMARY

Computer Science Engineering graduate (Cambridge Institute of Technology, CGPA 8.0/10) specializing in quantitative data analytics, business intelligence modeling, and data pipeline development. Proven track record transforming complex relational datasets into strategic decision dashboards using Power BI Desktop, Power Query ETL, custom DAX measures, Advanced SQL, Python (Pandas/NumPy), and Excel modeling. Experienced in HR attrition analytics and retail sales reporting.

TECHNICAL SKILLS

BI & Visualization: Power BI Desktop, Power Query ETL, DAX (Data Analysis Expressions), KPI Dashboards, Star Schemas

Data Analysis & Code: Python (Pandas, NumPy, Matplotlib, Seaborn), SQL (Aggregations, Window Functions, Joins, CTEs), Excel (Pivot, VLOOKUP, Solver)

Databases & Web: PostgreSQL, MySQL, MongoDB, React.js, Node.js, REST API Data Extraction

Core Competencies: Workforce Attrition Modeling, Retail Sales Analytics, Data Cleansing, Statistical Summaries, A/B Testing Analysis

WORK & INTERNSHIP EXPERIENCE

Backend Engineering Intern | 1Stop.ai

Bengaluru, India

May 2024 – Jul 2024 (Full-Time Internship)

- Designed and maintained scalable server-side REST API endpoints utilizing Node.js and Express.js for platform user operations.
- Integrated database CRUD operations with structured query optimization, reducing query response times across high-traffic tables.
- Collaborated in cross-functional standups to resolve backend authentication, request validation, and production error debugging.

Mobile Application & AI Intern | MindMatrix

Bengaluru, India

Dec 2023 – Jan 2024 (Winter Internship)

- Developed responsive user interface screens and tested interactive state handlers within production mobile application workflows.
- Evaluated generative AI workflow prompts and assisted in integrating client-side request pipelines with backend services.
- Authored technical documentation and test cases verifying user validation rules and cross-platform consistency.

FEATURED TECHNICAL PROJECTS

HR Analytics Intelligence Dashboard — Workforce Attrition Reporting Suite

Power BI Desktop, Power Query, DAX, Data Modeling, Excel

- Built an interactive BI executive dashboard analyzing 1,400+ workforce records across department, tenure, and compensation tiers.
- Formulated 15+ custom DAX measures for Attrition Rate %, Average Monthly Income, Headcount, and Job Satisfaction indexes.
- Uncovered key turnover drivers in sales and R&D departments, enabling HR leadership to simulate retention interventions.

Blinkit Grocery Retail Sales Analytics & Outlet Performance Dashboard

Power BI Desktop, Power Query ETL, DAX Measures, Excel

- Developed multi-page grocery retail intelligence suite tracking 8,500+ SKU transaction records across Tier 1-3 urban outlets.
- Engineered star-schema data models and DAX KPIs for Total Sales Revenue (\$1.20M), Average Sales/Item (\$141), and Outlet Ratings.
- Isolated top-performing product categories (Snacks, Dairy, Fruits) and revealed outlet vintage vs. revenue efficiency patterns.

Verified Careers & Platform Data Lifecycle Systems

Python, SQL, MongoDB, Excel Data Modeling, REST Data APIs

- Modeled data schemas for candidate applicant flows, recruitment eligibility criteria, and administrative status state machines.
- Executed data cleansing scripts in Python and SQL queries to eliminate duplicate recruiter entries and benchmark job trends.

EDUCATION

Bachelor of Engineering (B.E.) in Computer Science & Engineering

CGPA: 8.0 / 10.0

Cambridge Institute of Technology, Bengaluru, Karnataka (VTU) | Graduation: 2026

Key Coursework: Data Structures & Algorithms, Database Management Systems (DBMS), Operating Systems, Computer Networks, Software Engineering

CERTIFICATIONS & ACHIEVEMENTS

- Full Stack Web Development (MERN Stack) — Cambridge Institute of Technology & Industry Partners
- Data Analytics & Visualization Job Simulation — Forage (Accenture North America & Boston Consulting Group)
- Problem Solving & Algorithmic Practice — 90+ LeetCode and GeeksforGeeks problems solved (Arrays, Strings, Linked Lists, Trees)
