SUMMARY

Curious and detail-oriented Computer Science Engineering graduate who enjoys exploring data, understanding how things work, and turning unclear problems into structured solutions. I naturally approach problems by asking questions, looking for patterns, and validating information before making conclusions. I enjoy learning through hands-on work and experimenting with different approaches rather than relying only on theoretical knowledge. Known for being a quick learner who is comfortable adapting to new tools, workflows, and challenges. Strong interest in understanding business problems behind the numbers and communicating findings in a simple and meaningful way. Motivated by continuous learning, practical problem-solving, and the opportunity to create useful insights from information. Looking to begin my career in an environment where I can learn from experienced teams, contribute from day one, and grow into a strong analytics professional.

TECHNICAL SKILLS

Data Analysis: SQL, Python, Data Cleaning, Data Validation, Data Interpretation, Reporting
Excel: Pivot Tables, Pivot Charts, LOOKUP's, SUMIFS, Conditional Formatting, Slicers, Formulas
Power BI: Power Query, DAX, Data Modeling, KPI Dashboards, Data Visualization
Databases: MySQL, MongoDB, Database Queries
Tools: Microsoft Excel, Power BI, Google Sheets

EXPERIENCE

- MindMatrix Organisation**
Android App Development Intern
Feb 2026 – May 2026
Bengaluru / Remote
- Worked with application data, database-driven workflows, structured records, and project documentation during application development.
 - Maintained structured project information, tracked tasks, monitored workflow progress, and organized updates to support smooth project execution.
 - Used spreadsheets and digital tools for task planning, reporting, documentation, workflow management, and project coordination.
 - Used Generative AI tools to support requirement understanding, documentation, issue tracking, debugging assistance, and productivity improvement.
- IStop.ai**
Back-End Developer Intern
Jun 2025 – Sep 2025
Bengaluru / Hybrid
- Worked with structured datasets, database records, CRUD operations, and application workflows to support project activities.
 - Used MySQL and database queries to manage, retrieve, and verify application data during backend development.
 - Assisted with data validation, record management, reporting, documentation, and workflow tracking.
 - Supported issue tracking and maintained accurate project information while coordinating data-related activities.

PROJECTS

- Sales Dashboard**
Microsoft Excel, Power Query | 2026
- Built an interactive Sales Dashboard to track revenue, profit, regional performance, and top-selling products using KPI-driven visualizations.
 - Applied Pivot Tables, Pivot Charts, XLOOKUP, SUMIFS, Conditional Formatting, Slicers, and formulas to automate reporting and summarize business performance.
 - Performed data cleaning, validation, and analysis to identify sales trends and generate actionable business insights.
 - Created dynamic reports that allow users to filter and analyze sales performance across regions, products, and key business metrics.
- HR Analytics Dashboard**
Power BI, Power Query, DAX | 2026
- Developed an interactive HR Analytics Dashboard to monitor employee attrition, workforce distribution, department metrics, attendance, and key performance indicators.
 - Used Power Query for data transformation, created data models, and implemented DAX measures for KPI reporting and analysis.
 - Designed interactive dashboards with slicers, KPI cards, drill-through pages, and charts to support workforce analysis and business reporting.
 - Analyzed workforce data to identify employee trends, attrition patterns, and department-level insights for improved HR reporting and decision-making.

EDUCATION

- Cambridge Institute of Technology, Bengaluru**
B.E. in Computer Science Engineering
Aug 2022 – May 2026
CGPA: 8.0/10

CERTIFICATIONS

- Data Analyst Fundamentals – Deloitte
- Data Analytics Essentials – Cisco Networking Academy
- Claude 101 – Anthropic
- Software Engineer Certification – HackerRank
- Machine Learning – Infosys Springboard
